THE TORPEDO SYSTEM EZ-Fill Dispensing

Accurate dilution control has never been easier or more convenient. With the iDispense system, there are no equipment purchases, installation charges or repair costs. This portable, one-time-use dilution system enables you to choose between fill rates – high-flow for bucket filling and low-flow for bottle filling. Simply connect to your water source, select your container type, fill your container and go. Get versatility, accuracy and convenience all in one cost-effective package.

COMPLETE SYSTEM

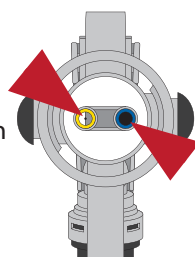

Entire Torpedo EZ-Fill Dispensing System

Features

- Easy and accurate dilution
- Portable to take on any job
- No waste or spilled product
- Save money on equipment and labor
- Ready to dispense right out of the box
- 24/7 reliability – no maintenance or service repair calls
- Dual flow valve for high-flow bucket filling and low-flow bottle filling

Metering Tips

Located inside the neck and tailored for each product's dilution requirements. These metering tips take out the guess work.

Dual-Flow Button

Easily slides to choose between fill rates for bottles, buckets or bulk fill containers.

Closed Package

The Flexpac bottle is a closed package and leak proof for safety, making it easy to take along on any job.

Quick Connect

Connects anywhere water is available. Lets you change between products quickly and easily
